動電科技有限公司 新竹市北區金竹路 100 號 1 樓 IO-Power Technology Co., Ltd 1F,No.100, Jinzhu Rd., North Dist., Hsinchu City 30055, Taiwan http://www.io-power.com.tw e-mail: io-power.com.tw Fax: +886 3 5357297

Outdoor Wireless SIP Digital Network Broadcast Transmission System

--WiFi Wireless Information Highway Application-

"Recording Monitoring System" + "Digital Broadcasting System" + "AI, IoT, Industry 4.0" ... and so on

- 1. "AP-STA Point-to-Point Long Distance" Wireless SIP Digital Network Broadcast and Monitoring Transmission System Application Illustration
- Wireless monitoring connection system has been set up and operation → New digital broadcasting system can be expanded
- Wireless broadcasting system between the head office and the factory -> Save wiring costs and provide a wireless broadcasting system with a long distance of 30m ~ 40Km (can simultaneously introduce a monitoring system)
- Wireless broadcasting system in mountain forest district or river bureau -> Solve the problem that broadcasting system cannot be installed at a distance of 30m ~ 100Km (monitoring system can be introduced at the same time)

勁電科技有限公司 新竹市北區金竹路 100 號 1 樓 IO-Power Technology Co., Ltd 1F,No.100, Jinzhu Rd., North Dist., Hsinchu City 30055, Taiwan http://www.io-power.com.tw e-mail: io-power.com.tw http://www.io-power.com.com e-mail: io-power.com.tw Tel:+886 3 5429395 Fax: +886 3 5357297

2. "AP-STA point-to-multipoint long-distance" wireless SIP digital network broadcast and monitoring

transmission system application diagram

- Wireless broadcasting system between the head office and multi-zone factories and offshore box net farming → Save wiring costs and provide wireless broadcasting installations with a distance of 30m ~ 40Km
- Wireless broadcasting system in mountain forest district or river bureau -> Solve the problem that broadcasting system cannot be installed at a distance of 30m ~ 100Km (monitoring system can be introduced at the same time)

勁電科技有限公司 新竹市北區金竹路 100 號 1 樓 IO-Power Technology Co., Ltd 1F,No.100, Jinzhu Rd., North Dist., Hsinchu City 30055, Taiwan http://www.io-power.com.tw http://www.io-power.com.tw <a href="http://www.

3. "AP-STA point-to-multipoint shore distance" wireless SIP digital network broadcast and monitoring

transmission system application diagram

- Wireless broadcasting systems such as warehouses, factory areas, exhibition areas, temporary event areas, etc. ->Save wiring costs and provide wireless radio deployment at a short distance of 30m ~ 2Km (can introduce mobile monitoring system)
- Wireless broadcasting systems in neighborhoods, campuses, parks, etc. → Save wiring costs and provide 30m ~ 2Km close-range wireless broadcasting deployment (can simultaneously introduce monitoring systems)
